## What is this course about?

The BSB50820 Diploma of Project Management helps students gain the project management skills and knowledge they need to initiate, plan, execute and evaluate projects across a variety of industries. This qualification will prepare students for job roles like Project Manager and Project Team Leader by building strong theoretical knowledge and applying a range of skills to successfully complete realistic project-based scenarios. In addition to project management skills, the qualification also allows individuals to gain important critical thinking, problem solving team work and communication skills that are in demand across any job role or industry.

# What do I get out of this course?

This course covers the specialised knowledge and advanced skills needed to manage project scopes, project costs, risk, and quality. In addition to project management skills, employers are looking for qualified candidates who can provide good customer service and communicate well with a variety of team members and stakeholders. Employment Outcomes and Job Roles vary across different Industry Sectors. Possible employment opportunities for this qualification may include:

- Project Co-ordinator
- Operations manager
- Business manager
- General manager
- Human resource manager
- Accounts manager
- Project Manager
- Contract Administrator
- Mechanical engineering Technician
- Pressure Welder
- Advanced Fabrication Technician

# What do I need to apply?

The following requirements apply to entry into this qualification/skillset:

- Age 18+
- IELTS 6.0 or equivalent English proficiency
- Completed high school Year 12, or equivalent.
- Experience with computer-aided design (CAD) systems to produce basic drawings.

Refer to the Federation Academy Enrolment Form for further information regarding possible enrolment requirements.

# Who is this course for?

# How is this **course trained and assessed?**

Training has been designed to be progressive and step-based to provide the skills and knowledge required to enter a managerial level career in Project Management in wide variety of industry sectors. Training and assessment is conducted face to face in the classroom as well as through hands on practical sessions undertaken in a simulated workplace environment. All students are required to attend class a minimum of 20 hours per week over the forty-four (44) study weeks. All training material is available to students 24/7 on the Federation Academy LMS. All assessments are submitted and assessed via the LMS.

All training and assessment material is provided to the student through a Learning Management System and all assessments are submitted and assessed through the Learning Management System. Ongoing trainer support and training is provided by direct face to face contact with trainers and assessors throughout the training products delivery. Each trainer is also contactable by email to help students. Students are expected to undertake up to ten (10) hours per week of Self-Directed Learning to improve their understanding of any topics being covered.
